"The Coin Machines Merry-Go-Round"

WHAT ABOUT TAXES?

By Bill Gersh

FOREWORD — The clamour from our readers for concerted action to assist in solving the many tax problems now facing them brings up the necessity for a "National Tax Council". At the request of many coinmen, we reproduce an editorial which appeared in a previous issue.

In the issue of January 14, *The Cash Box* reported that letters are being received in ever increasing numbers from many coinmen who have been informed that their city is planning to greatly increase license fees to obtain as much income as possible from industry.

At this time Omaha is fighting a tremendously increased license fee ordinance on both its pin games and phonos. Chicago has a $50.00 per year phono tax ordinance. Philadelphia is also facing an increase in its phono license fee to $25.00 as well as a pin game license increase. Los Angeles faces the prospect of a $25.00 per year phono license, as well as an additional $1.00 for each wall box.

Other cities thruout the nation are reporting similar licensing problems.

It is well known that from the beginning of history, the one important question that has confronted all peoples and all rulers, has been taxes. Taxes build governments and destroy them. Low taxes mean freedom. Likwise, high taxes can mean slavery and even bankruptcy.

It is noteworthy to state here and now that almost from its very first issue, *The Cash Box* has fought (and will continue to fight) for a "National Tax Council". It is sorrowful to state that those coinmen who have never been held in the vise of sudden and severe taxation measures have little feeling for the coinman, many miles distant, who is suddenly caught in a revenue raising tax wave.

Whether there is any link between the fact that the Federal government is being asked to tremendously lower its taxes and that certain communities thruout the country have suddenly come to the decision that this is the time to again soak the coin machine industry, is too involved and much too complicated to answer.

Suffice it to state at this time that the Federal government will be receiving less taxable revenue. In addition, there is expected to be a severe period of unemployment thruout the nation. Regardless of how many jobs reconverted factories can offer, they can never completely take care of the millions of men and women who are returning from the armed forces, plus the millions of workers who are waiting to return to their former jobs.

Therefore, each and every community in the nation seeks larger public works projects. That is also why there is a great drive afoot now to get teen age youngsters back into schools and colleges. That is also why returned service men are being asked to finish their schooling. And why women are also being urged to return to homes, instead of to their former jobs.

It all adds up to the fact that the Federal government, because there is such a demand in almost each and every bill that is being pushed thru Congress, must lower personal taxation as well as business taxes to help bring this country to a freer economy. Somewhere down the line the states, cities and villages will have to raise the differential, so that the servicemen and women, who will return to these communities, will be assured the employment which was, and is, promised them.

What is easier for a politician to attack than this coin operated machines industry? Here there is no "National Tax Council" composed of learned and expert men who can forestall higher taxation. In fact, is there any sort of group that can come to the fore and plead the cause of this business before the tax bugs who are trying to further drain the

profits of those who operate the equipment of this industry?

There is not even as yet in existence a library, or a central office, where coinmen can go to obtain information regarding all the coin machines taxes thruout the country. There is no one place that contains tax information necessary to the good and welfare of the man in this business who may suddenly and desperately require it. There is no one spot where he can obtain tax records, precedents of former tax cases, tax ordinances, or other data which might prove of help to him in allaying greater taxation.

The Cash Box has offered itself and its files as a central location so that all men in this industry can have the use of these when the time for such need arises. As yet only a few have answered this appeal. It is the hope of *The Cash Box* that all will come to the fore and will help create a tax information center. All coinmen have at their fingertips at this time the tax data relative to their own communities. By sending this information to *The Cash Box* all in this industry will have one centralized location where they can obtain whatever tax data they want and need in times of stress.

A "National Tax Council" is so desperately needed that to continue to repeat more and still more reasons for this great and urgent necessity actually seems infantile. Here is something that is so vital, that the men in this industry can no longer do without it. And yet it hasn't been formed to benefit the very men of whom it is asked.

The trade must come to the realization that it no longer can hide its head in sand like an ostrich. Politicians everywhere in the country realize that this is an unorganized industry. One industry that cannot hold them back from doing their worst when matters of raising revenue arise. (Friendships count for very little when a politician's career is at stake and especially when the public want results.)

Suddenly, and seemingly from nowhere, there has again arisen demand for higher license fees on coin operated machines. Why, during this period with the war over, with demobilization under way, with all business urging that taxation be removed so that more risk investment will enter industry, should there now again arise the specter of higher taxes for this business?

Simply, because as other industries who have their own powerful lobbies behind them and great organizations to protect them fight lower taxes—someone must make up this lost differential. And what industry is better suited for such increase than the coin machine business?

Here is an industry that sprawls over the entire nation. It has met with great approval from the general public. The words "pin games", "juke boxes", "cigarette machines", "candy venders", "scales", and all other equipment have become as familiar to the young as they have to the old.

This industry, because it is sprawled here and there over the nation, because it isn't joined together in a common cause to protect itself and to nurture and foster its greater growth, has become the easy prey of those politicos who seek the limelight of the front page and who wish to appease the thinking people. These "thinking people" realize that the treasury in their state or city must have money to keep public works projects in action for the benefit of those men and women who will return from the armed forces, as well as for the benefit of all others who will be unemployed.

This industry has as yet devised no method for its self protection in such instances. That very first essential of man, self preservation, is actually neglected by the members of an industry which has grown so great it has captured international attention. There is no one who can point to any organization in this field which could step to the fore for him today were he suddenly to become enmeshed in a severely high tax measure in his community.

There is no "National Tax Council"! There is no "National Tax Council" because the men in this industry have not come to the fore to demand and create it. Few coinmen have been able to convince those whose pocketbooks haven't as yet been affected by severe tax measures that this is the time for the single ounce of prevention to prevent the pound of cure.

It is up to the intelligent members of this industry to come together and create a "National Tax Council". It is up to only a hundred or so such coinmen to offer $500 to start such a council for this industry. It is up to these far seeing men to create the nucleus for a "National Tax Council" which will prove to be the greatest money saver in the history of this industry.

IT CAN BE DONE!!

CHANGE THE RECORD LABEL

Juke Box Trade Needs Special Record Label Reading, "*For use in coin operated music machines.*" Would Halt All Further Gouge Attempts and Set Quota for Juke Box Trade.

NEW YORK—As The Cash Box previously explained in its July 24, 1945 issue, and which is now being called for nationally by all in the juke box industry — a new record label must be arranged for this industry reading, "For use in coin operated music machines". Such wording on the labels of the records which the operators are using in their juke boxes would automatically eliminate a great many gouge attempts by such organizations as ASCAP and BMI.

It would also automatically eliminate the present Buckley bill (H.R. 3190) in the Patents Committee of the House of Representatives.

There is no longer any doubt that with the fact that certain organizations and persons are claiming that the juke boxes are playing "commercial music" and therefore, "giving a public performance for profit", that this would no longer be the case were there a special label for the records used by the juke box field.

In the first place each record today carries the statement that it is made for "use in home phonographs only". This instantly makes the user of a record for commercial purposes anything but a "legal" user of the record.

The trade is more than willing to pay the record manufacturers the extra few pennies per record which would be necessary if they were able to obtain an agreement from the artists, publishers and copywriters for using such a phrase on a special label for the juke box industry.

This would once and for all time eliminate the cry that the juke box industry is not receiving the quota of records it should be getting from the record manufacturers. With a special label for juke boxes only — the record manufacturers could then set up their quota for this industry and this field would know just what that quota would be.

From every standpoint this juke box trade is entitled to greater consideration by the record manufacturers — especially the need for a record label which will read, "For use in coin operated music machines", so that from henceforth there will be no further question regarding the legality of using records in juke boxes.

This is the time — right now — for the entire juke box industry to get into immediate action to eliminate this obstacle to its future growth and progress and to further better assure its welfare by demanding of the record manufacturers — especially the "big three", namely: Decca, Victor and Columbia — that they produce from now on a record bearing a special label for use in juke boxes only.

LOS ANGELES COUNTY HIKES JUKE TAX AND ADDS WALL BOX FEE

LOS ANGELES — Locations where there are juke boxes in the unincorporated territory of Los Angeles County will now be compelled to pay $12 license fee yearly for each machine and an additional $1 for each wall box.

This is a new ordinance just prepared by the Board of Supervisors for the county.

It is estimated that there are approximately 2,000 juke boxes in the county. They never before paid any license fee.

The Board of Supervisors also adopted an ordinance raising the license fee of pinball machines from $12 per year to $24.

The Music Operators Association of Southern California have started the circulation of a petition to be signed by all the citizens of Los Angeles County objecting to the license fee as it now exists and recommending that a new fee of $6 per year per phono and 50c per year per wall box be instituted instead.

This new music ops association has been hard at work to bring about better conditions for the trade in this area. This will be a test of the effectiveness of this oranization if they can get sufficient signatures to their petition to cut down this new license fee.

"CURLEY" ROBINSON GETS PIN-BALL FEE CUT FROM $36 TO $24

SAMUEL (CURLEY) ROBINSON

LOS ANGELES—In a heated debate with the Board of Supervisors of Los Angeles County, Samuel (Curley) Robinson, managing director of the AOLAC (Associated Operators of Los Angeles County, Inc.) succeeded in getting the Supervisors to cut down the proposed $36 per yearly license fee on pinball machines to $24.

NO DEFINITE PRICES ON CIG VENDORS

Only Tentative Prices Quoted at NATD Meeting About $15 to $25 Higher Than Last Models. No Definite Delivery Dates Set by Mfrs.

CHICAGO—All the cigarette machine manufacturers displaying their new equipment at the National Association of Tobacco Distributors show at the Palmer House, this city, -this past week were quoting tentative prices only for their products.

Some of these manufacturers had been taking orders far in advance. A few have had orders on file for over a year now. But no definite delivery dates were given to the buyers of their equipment even at this showing.

It was revealed, tho, that prices of the new cigarette machines would be from about $15 to $25 higher than the last models manufactured.

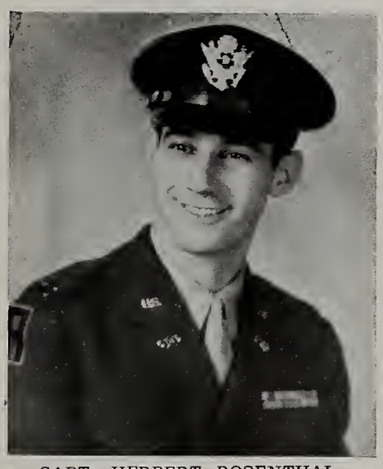
Each one of the machines shown was of outstanding design and especially attractive to the tobacco jobbers and distributors who came to this meeting to see them displayed.

There were also present many cigarette machine operators from all over the country who reported that the new '46 machines far outclassed anything formerly shown to the trade.

One manufacturer stated, "There is no use setting any delivery date at this time. We are short of materials and with the strikes now in effect we don't know when we shall be able to obtain what we need to finish our machines and get our production line in action."

It was also reported that the cigarette machine manufacturers were very much enthused over the orders taken at this year's NATD show. They claim that these surpassed all previous records and that many firms, never before in the cigarette operating business, are now entering into the field.

Capt. Herbert Rosenthal Apptd. Sales Manager Of Banner Specialty Co. Pittsburgh Offices



CAPT. HERBERT ROSENTHAL

PITTSBURGH, PA.—I. H. Rothstein of Banner Specialty Company announced this past week the appointment of Captain Herbert Rosenthal, son of Harry Rosenthal who is General Manager of the firm's offices in this city, as Salesmanager of these offices.

Mr. Rothstein reported, "Herb enlisted as a private in the Army in March, 1941. He worked his way up from private to corporal, corporal to sergeant, sergeant to 2nd lieutenant, then to 1st lieutenant and finally reached his present Captaincy.

"He spent quite a bit of time in the European Theatre of War and later was sent to the South Pacific. He returned to civilian life this past December, 1945.

"Prior to his enlistment in the Army, Capt. Rosenthal was with Banner Specialty Company from 1937 to March, 1941. During his first year of association with Banner Specialty Company he learned every phase of the business.

"In 1939 he was appointed Salesmanager and filled that position until 1941. I am certain that no one in the coin machine business has ever been more popular with the operators than Captain Herb Rosenthal."

Capt. Herb Rosenthal is very much elated to be back at his old position of salesmanager for Banner Specialty Company in this city. He is already in action and is meeting with operators thruout this area every day.

"Once again", he stated, "you can tell all the trade that we shall continue to work with our famed slogan foremost and that is, 'we endorse only the best'."

Harry Rosenthal, Capt. Herb's dad, is very much enthused to have him back again. He stated, "As the new equipment comes to market we, at Banner Specialty Company, are going to be right in there making sure that everyone of the operators in our territory will always get the best."

Mr. Rothstein also reported regarding Harry Rosenthal, "Harry is well known to every operator in Western Pennsylvania, the entire state of West Virginia, Ohio and some parts of Indiana. He is a real go-getter, conscientious in every respect and knows all the problems of the operator. He is constantly at work trying to improve the operator's business."

WURLITZER DISTRIBS CONTRIBUTE TO SISTER KENNY FOUNDATION

M. G. (Mike) Hammergren, Vice-President of The Rudolph Wurlitzer Company receiving the thanks of George Marklin (right) Chicago field worker of the Sister Elizabeth Kenny Foundation for the assistance given in the drive for funds.

CHICAGO—M. G. (Mike) Hammergren, Vice-President of The Rudolph Wurlitzer Company, turned over to George Marklin, Chicago field worker of the Sister Elizabeth Kenny Foundation approximately $4,500, contributed by Wurlitzer distributors during their recent convention held at the Bismarck Hotel, here.

The money was subscribed through the novel method of "dunning" every Wurlitzer man five dollars who inadvertently mentioned a competitive firm by name during the convention.

This contribution pushed the Wurlitzer "Sock Polio" Fund to over $7,000.

Money raised during the drive will be used to equip and open clinics for victims of Infantile Paralysis and to train doctors and nurses in the Sister Kenny method of treatment.

The Rudolph Wurlitzer Company solicited their operators to push the worthy campaign through the installation of Wurlitzer supplied stickers on the visible record changer window of every phonograph they own. This sticker punched home the fact that 10% of every nickel "musically spent" would be donated to the Sister Kenny Fund for Infantile Paralysis.

Bing Crosby is the national chairman for the appeal.

AOLAC HOLDS DINNER MEET WITH L. A. JOBBERS AND DISTRIBS

LOS ANGELES—Directors of AOLAC (Associated Operators of Los Angeles County, Inc. held a special dinner meeting at the Mayfair Hotel, this city, Thursday, January 10, and invited all distributors and jobbers in this area to be present at this meeting.

Another meeting, because of this success, is planned for the very near future.

NEW PLASTIC NEEDLE GIVES 3700 PLAYS

MILWAUKEE, WIS.—Joe Beck of the Mitchell Novelty Co., this city, reports that he obtained one of the new all plastic phono needles now being produced by the Linde Air Products Company and that he placed it on test in one of his phonos.

Beck stated that the needle proved to be one of the best he had ever used and that after 3700 plays he removed it, "Not", he says, "because it had no further playing life, but rather to see what it looked like after that many plays."

HANKIN ACCLAIMED AS "ONE OF SOUTH'S LEADING CITIZENS"

MORRIS HANKIN

ATLANTA, GA.—The January issue of the "Georgia State Reporter", a state-wide newspaper devoted to the interests of Georgians, carried practically a large feature story and photo about Morris Hankin, nationally known coinman.

Under a heading "Interesting Personalities", Hankin was described as, "a young business man of Atlanta who has won phenomenal success".

The "Reporter" continued, "Mr. Hankin began his business career in Atlanta twenty-five years ago when he established a grocery business with a meager amount of capital. Three years later, envisioning the enormous possibilities of the music business, then in its infancy, he organized the Hankin Music Co.

"Mr. Hankin is married and has two children. He takes a deep interest in charitable work and other moves to further the intellectual and cultural activities of the community.

"One of Mr. Hankin's most cherished possessions is a citation awarded him for his services by the Crippled Children's League of Georgia in connection with 'Aidmore'.

"During the war period Mr. and Mrs. Hankin devoted much of their time and money to the war drives. One special event handled by them was the regular entertainment they provided at Atlanta clubs for 25 wounded service men from Lawson General Hospital, held at regular intervals thruout the year."

The article then relates that Hankin and Jack Lovelady recently joined forces and formed the H. & L. Distributors to handle the A.M.I. line of phonographs, musical accessories and other coin operated equipment, where their business is expected to "exceed a five-million dollar volume annually". Their offices are called, "the finest building of its kind in the South."

The move to the new location at the confluence of the Missouri and Kansas rivers will be completed this month.

R. R. (Rudy) Greenbaum, Vice President of Aireon said, "The lease for the five buildings and ground is with the city of Kansas City, Kansas. It is for a period of five years, with the privilege of two renewals of five years each".

STRAHL GETS "EX" ON TWO RECORDS

SAM STRAHL

PITTSBURGH, PA.—Sam Strahl of American Coin-O-Matic Machine Co., this city, reports that his firm have just been appointed distributors for the "Exclusive" and "Excelsior" records.

Strahl stated, "You can tell everyone of the juke box operators in Western Pennsylvania, West Virginia and Virginia that we are going to sell these records to them exclusively. We believe that sales of our records which have proved to be among the biggest hits in juke boxes, should only go to music operators first.

"Remember 'The Honeydrippers'?" This was one of our records. We still have them on hand. We also have some new hits which are sure to click with everyone of the music machine men in the country.

"We are going to build one of the biggest record departments in the east and intend to carry one of the largest stocks of records in the nation. We shall always have plenty of records on hand for the operators."

WANTS NATIONAL MUSIC SET-UP FOR NATIONAL TAX COUNCIL

RAY BERNHARDT

PHILADELPHIA, PA. — Ray Bernhardt, president of the Phonograph Operators Assn. of Eastern Pennsylvania and New Jersey, sent the following letter to The Cash Box.

"I have been urging our members to contact the Pennsylvania Representatives, also their District Representatives, by letter urging them to vote against the proposed Buckley Bill H.R. 3190.

"I believe that this method will be about the most effective one that can be used, unless we, as a National Association, would be in a position to send someone to Washington to lobby against the Bill.

"However, if I am successful in contacting one of our Senators from Pennsylvania for an appointment I expect to go to Washington sometime next week and will lay what facts I am in possession of before him. I feel sure that he will be able to bring a great deal of pressure upon our State Representative who are members of the House Patents Committee.

"Again permit me to urge all associations throughout this entire country in the forming of a National Association of Music Operators and also a National Tax Council as I deeply feel if we are to remain in business for any length of time these two organizations will be the means of strengthening our industry, and will also give us a united front towards combating the evils which arise in our business."

MICHIGAN OPS ASSN. FIGHT BUCKLEY BILL

JOE BRILLIANT

DETROIT, MICH. — The following letter was received this past week from Joe Brilliant, president of the Michigan Automatic Phonograph Owners Assn., Inc., this city.

"I want to take this occasion to congratulate you and The Cash Box on the very fine article that you published in your December 24th issue of The Cash Box. It was read at the General Meeting of our Association on Thursday, January 10th, and as a result of a discussion which ensued, a resolution was adopted by the Association expressing itself very much opposed to the Bill and authorizing the Association to take all steps necessary to exert its influence against the Bill.

"We are therefore immediately contacting Congressman Frank E. Hook, who is a member of the House Patents Committee, in order to bring to his personal attention our feelings in the matter. We have also asked our members and they in turn are asking their customers to express themselves likewise to Representative Hook and to all other Congressmen from this State.

"Furthermore, we are very anxious to know if concentrated efforts are being made by other organizations in this matter, and I will deem it a very personal favor if you can forward to me any information along that line.

"It is our desire to cooperate with you in every possible way to fight the passage of this Bill and we will very much appreciate advice from you as to the propriety of sending a representative to Washington in that connection.

"Again please accept my personal congratulations to you, as well as from our entire membership, for the interest you are taking in this matter which is so vital to the progress of our industry."

AKRON MUSIC OPS ADOPT RESOLUTION

AKRON, O. — The following letter was received from Joe Elfant, president of the Summit County Automatic Music Operators Assn., whose slogan is, "The Voice of Greater Akron Operators."

"Let me commend you personally for the lead you are taking in leading the attack on the Buckley Bill. I am enclosing a copy of a resolution that I prepared and we of this association adopted. I have sent copies of this resolution to the Chairman of the patents committee and to the ranking senior member who happens to be a member of another political party as well as to the congressmen of our district. We feel that this may help in some measure.

"We, in this association, are working very hard to obtain 100% membership and then we intend to go to work on the 70/30 rate of commission but feel that its success depends on total membership. We have here, as in many localities, a few small operators that feel their best interests do not lie in joining an association but are content to go along for a free ride.

"In our membership meetings I generally carry one or more copies of The Cash Box and certainly would be lost without them at our meetings.

"Again let me reiterate a hearty BRAVO for your very constructive efforts on behalf of all operators."

FRED FIELDS BECOMES N. W. REGIONAL MGR. FOR PACKARD

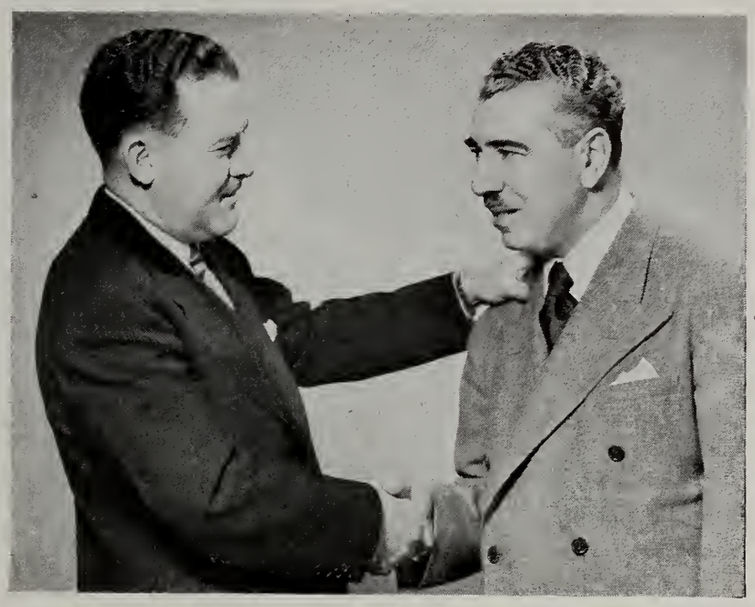
WURLITZER APPOINTS MEXICAN DISTRIB



Left to right: Dave Lee, *Wurlitzer Export manager, congratulates Mr. Jose Riojas, owner of the Casa Riojas. Mr. Riojas stated that a fully staffed and equipped Wurlitzer phonograph headquarters would be located at Rosas Moreno 87 in Mexico City.*

NO. TONAWANDA, N. Y. — The wares singing of that Mexico highway merchant, "Jose Gonzales, whose family all hollers to customers passing their way," will probably improve to the accompaniment of a Wurlitzer phonograph he'll no doubt install in his roadside stand — as will his business!

All this stems from the fact that announcement has just been made by the Rudolph Wurlitzer Company that Casa Riojas have been appointed authorized distributors of Wurlitzer automatic phonographs, remote control units and auxiliary equipment for all of Mexico.

ROTHSTEIN MOVES FAST

PHILADELPHIA, PA. — I. H. Rothstein of Banner Specialty Company is moving about this city with greater speed than ever before arranging with contractors, architects, etc. to complete the firm's new building by February 20.

Mr. Rothstein purchased the former First National Bank building at Second and Girard Avenue, this city, and after a noted designer had completed drawings of the firm's new offices and showrooms, he called in contractors, architects, builders, carpenters, electricians, etc. with a definite specification that the building be complete by February 20 when he intends to officially open his doors for the trade here.

Rothstein reported that the new, remodeled First National Bank building will prove the most outstanding coin machine distributing headquarters in the country.

NEW RUBY PHONO NEEDLE INTRODUCED TO TRADE

STAMFORD, CONN.—A new ruby-tipped needle is now being made available for the automatic phonos by the Bonot Company of this city. The needle is called, "The Rubiayat" and has a tip of ruby created by a new process.

Richard L. Leizar, recently officer in charge of the planning for the Record Equipment Division of the U.S. Navy, is directing the Bonot Co. Mr. Leizar in commenting about the needle claims, "The ruby jewel is mounted with the tip exposed in such a manner that surface noise is virtually banished, while the complete range of high and low frequency is perfectly transmitted."

A new high fidelity feature of "The Rubaiyat" is the set of small horizontal bars which are affixed to the flattened shank. Engineering tests of this device in impartial laboratories indicate that these bars tend to disperse objectionable vibrations while the clear, vital harmonies are transmitted as actually recorded.

The ruby is softer than its nearest likeness, the sapphire, but has more inherent toughness, thus insuring long record life with low wear.

DALLAS, TEX. — Ed Brown, one of the Southwest's largest cigarette and merchandise machine operators and distributors, recently mailed his locations a holiday message in which he showed pictures of his organization, and pledged their services to the requirements of the location.

Brown devoted considerable space in this mailing piece to what he calls "The Operators' Code of Ethics". We reproduce it herewith:

"I consider Automatic Merchandising a worthy vocation, as it affords me a distinct opportunity to serve the public. I will, therefore, always keep the public's welfare and well-being first in mind.

"I hold that the sale of my goods and my services for profit is proper and ethical, provided that all parties in the transaction are benefitted thereby.

"I will offer only high quality merchandise and service to the public at all times.

"I will see that my merchandising or service machines are always clean, attractive and in good working order. I will have them serviced by competent personnel as frequently as the type of merchandise or service may require.

"I will operate only those merchandising or service machines that clearly show when they are empty or those that will provide for the return of the patron's money if no merchandise is delivered or service rendered.

"I will see that all merchandising or service machines are plainly marked with clear and simple instructions for their operation.

"I will participate in the civic programs of my community, and support worthy welfare activities.

"I will improve myself, increase my efficiency and will constantly strive to better my services to the public.

"I recognize the Automatic Merchandising Industry as a modern and effective means of creating increased distribution of the products of American farms and industries to the public."

GLOBE DISTRIBUTING CO. HAVE NEW COIN CHANGER

CHICAGO—Jimmy Johnson of Globe Distributing Company, this city, is now experimenting with the adaptation of a remarkable new coin-machine accessory that automatically "delivers the goods" and makes the correct change in the same operation.

Manufactured by the Johnson Fare Box Company of Chicago, this development is known as the "HARRIS CHANGER" and is already being used with outstanding success on post-war beverage dispensing machines.- In one department store installation, for example, beverage sales have been increased in excess of 25 per cent.

Jimmy Johnson refers to the changer as a "purchase" changer since it is necessary to make a purchase in order to use the changer and to obtain the change returned.

According to Jimmy Johnson, "The Harris Changer is foolproof in operation, delivering the goods and making the correct change instantly. When a quarter is inserted in the machine, the nickel purchased is dispensed and in addition four nickels are returned as change to the purchaser. When a dime is inserted, the merchandise is delivered with a nickel in change.

"From an operating standpoint, the advantages are twofold; first, no sales are lost because the customer does not have a nickel; second, the transaction provides the customer with change in nickels for extra purchases from this or other vending machines."

Through the cooperation of the Johnson Fare Box Company, Globe Distributing Company has been given the privilege of testing the Harris Changer on all types of vending equipment such as consoles, pin games, candy vending machines and other types of automatic coin machines.

COIN CRAFT ASKS FOR YEARLY DIGEST

HAMILTON, ONT., CAN. — E. Liebman of Coin Craft, Canada, this city, suggests that *The Cash Box* compile a yearly digest of long-life equipment.

He reports, "This is a very valuable service *The Cash Box* can render operators and the industry as a whole."

He also says, "Such a record should cointain the name, model, year of manufacture and characteristics of the machine. It should also have the name and location of the manufacturer and last, but not least, the original selling price."

"If you took a poll of your former subscribers", he continues, "and especially of the importers of U.S.A. equipment around the globe, you will find a unanimous clamor for such a digest."

Liebman is of the belief that the entire industry would find such a compilation of tremendous value. He claims that ten years ago it was a simple matter to rely on memory but that under present conditions a complete digest is necessary.

NATIONAL WURLITZER SHOWINGS REPORTED TO HAVE CLICKED

NO. TONAWANDA, N. Y. — Wurlitzer unveiled its new commercial music merchandise January 6 and 7. Simultaneous showings by Wurlitzer Distributors on what have become traditionally known as "National Wurlitzer Days" were productive of enthusiastic reactions from coast to coast, according to the firm.

As M. G. Hammergren, Wurlitzer's Vice-President and Director of Sales put it, "Our sensational Model 1015 won the wholehearted acclaim of Wurlitzer Music Merchants. These men readily envisioned its benefits both to themselves and to their locations, hailing its unique construction and engineering as the greatest step ever made toward dependable, trouble-free operation. We are delighted with the reception accorded it and the immediate response on the part of leading Music Merchants."

"Much comment was occasioned by its brilliantly beautiful cabinet mounted on its polished metal base —one of many innovations combining handsome appearance and practical advantage. The pronounced improvement in Wurlitzer's already superb tonal quality drew much acclaim. Reports submitted by all Wurlitzer Distributors are highlighted by descriptions of the glowing praise accorded the new Wurlitzer Model 1015 Phonograph by all who attended the showings."

Ed. R. Wurgler, Wurlitzer General Sales Manager, reported: "Perhaps more than any other feature, the unique service accessibility afforded by our new "Cleared-for-Action" service setup, occasioned open applause. Many a Music Merchant stated it was one of the greatest innovations in the history of phonograph design and would result in tremendous savings in service, time and cost."

Wurlitzer's postwar program is reported to have got off to a roaring start under the impetus of National Wurlitzer Days showings. The theme of the showings centered about the slogan, "Watch Wurlitzer Extend Its Leadership". That all who saw the new offerings were in complete agreement was evidenced by a reported total of orders taken that had Wurlitzer's three top Sales Department executives, Mike Hammergren, Ed. Wurgler and Gordon Sutton beaming from ear to ear.

The four separate games are displayed on one large colorful cabinet stand and form a unit. The compactness of design making it accessible to 4 players—all at the same time. Jean and Dolores Minthorne were quite excited this past week because of their showing of the new Seeburg phono on Sunday (Jan. 20) and were working feverishly to get their showrooms and offices all set for this big event . . . Preston Jarrell of Coinmatic reports that the firm are getting ready to release some more records . . . Nick Carter of Nickabob very busy with auditors this past week (income tax time) and also very much enthused over the forthcoming "A" Day for Aireon's line.

Nels Nelson is looking around for more help — the boys are bringing those juke boxes in to his place by the dozens for his expert servicing . . . And, all you guys, want to see something really attractive? Drop over at Bill's spot and meet Mary Jane White, Bill's new assistant bookkeeper. Wowee.

Charley Robinson taking things easy while waiting for the arrival of much new equipment that is on order. Charley reports that he expects these new machines any day now. And when Charley stays away for awhile, Al Bettleman, likeable and genial salesmanager of the firm is in complete charge and has already won many friends for this firm because of his very nice way of doing business . . . Congrats and more congrats to Charlie Washburn who has just received word of his appointment as distrib for the Packard music line in California, Nevada and Arizona. Charlie has purchased the building at 2532 W. Pico Blvd. and is now having it remodeled to show off the new Packard line . . . The boys are weeping in their coffee along coinrow now that the word is out that Ruthye Cowan of AOLAC will be married on March 1 to Michael Angel.

Al Sleight, the Bally man, is due in town this week and many want to talk with him on the new Bally Multiple Music . . . Paul Laymon reports another big batch of Victory Derby on the way and will soon have them in his showrooms. The Laymons (Paul & Lucille) spent the weekend in Santa Ana and ran into a terrific wind and sand storm—for a while Paul thought this was "it"—but here they are—sound as ever—with Lucille looking just like a million bucks . . . Phil Robinson just back from a short vacation in Palm Springs and looking swell . . . Earl Center of Bakersfield just out of the Army and planning on taking over an operation very soon . . . Connie Bergbauer, formerly a Wisconsin operator, has just purchased a home here and intends to get operating again—and soon, too.

(Dick) Gallagher of Santa Ana, S. R. Hopkins of Banning and Bill McGowan of Visalia.

THRU THE COIN CHUTE

DALLAS

R. (Dick) Warnecke spent the past weekend in Dallas and while there was appointed sub-distributor for the Packard Pla-Mor music line, as well as all other lines handled by Wallbox Sales Co. Dick, during the war, sold all of his operations in San Antonio and just recently returned to the distributing biz once again. It goes without saying that Dick is bound to do a splendid job in his section of the state for the various lines he will handle . . . Frank O'Brien is now in his luxurious new office. It sure is a marvelously swell chance for Mrs. O'Brien's boy Frank. He is very much enthused over the new machines that he is going to distribute and is busy on the phone these days contacting all the leading ops in the state.

Bob Hunter of Hunter Sales Co. very busy this past week showing ops thru his recently completed headquarters. Bob can be rightfully proud of his new place on McKinney Avenue . . . Collis Irby is working overtime these days interviewing distributors thruout the 3 states he covers . . . Earl and Audrey Reynolds who are the Aireon distribs are holding down the offices while Porter Harrison is in San Antonio purchasing new furniture for their offices there. They are naturally anxious to receive the new Aireon models and are looking forward with great eagerness for Aireon's "A" Day . . . A. H. Shannon of Houston in town contacting various distribs here and buying more and more equipment. Shannon is loking swell and reports he's in his new place of business in Houston.

George Wren and Harry Drollinger return from a swing around the state interviewing jobbers and distribs for the Packard line. Harry immediately took off by plane for New Orleans where he intends to appoint a state distributor and then fly to the regional manager's meeting in Indianapolis. From the smiles that George and Harry had on their faces when they returned here seems like the boys did themselves very proud on this trip . . . Major J. H. Eastham of the U. S. Army who is stationed in Paris, Texas, was seen closeted with Collis Irby this past week and from the talking heard about the showrooms seems that the Major will remain in Paris after his discharge and probably enter into the coinbiz.

Some of the ops seen about town this past week were: Ed Mahone of Marshall, S. L. Galvan of Houston, Marvin McLarty of Lubbock, T. E. Hart of Borger, T. E. Geppert of Teague, Jimmy Bounds of Waco, H. H. Hightower of Fort Worth, Charley Sage of Tyler, E. B. Milburn of Mineral Wells, Mr. and Mrs. M. T. Reiners of Wichita Falls, T. C. Burkett of Corpus Christi, Gene Goss of Corsicana, Frank Abate of Marlin, Tony Lewis of Marlin, M. O. McWhiter of Gainsville along with Church Hays of the same town, E. H. Hamilton, M. R. (Jesse) James, Dick and the very charming Mrs. Warnecke of San Antonio and C. E. Winn one of Texas' oldest operators who hails from Fort Worth.

MINNEAPOLIS

Van Middlemas of Bismarck, N. D., spent a few days this past week in the Twin Cities. Van likes to come down to meet with the boys whenever he has a little time on his hands . . . Johnny Hines is back on the job again with J. J. Cook of St. Paul. Johnny just received his discharge from the Navy after spending two years in the South Pacific . . . Hank Kruger of Fairfax made one of his rare trips to Minneapolis this past week. It sure was nice to see Hank around the old town again . . . A. C. La Trace reports business was very, very good in his territory this past year. He was in town this past week visiting around with leading distribs here.

F. E. Donaldson is now out of the Army and back on his route again. Mrs. Donaldson took charge of things while he was gone and from all reports did a really commendable job . . . Someone, by the way, ought to get up a list of all the gals who took care of their husband's routes while they were in the Army or Navy or Marines and award them with something really beautiful. These girls really did a grand job and helped keep the coin machine business going at top speed. In fact, many of them proved to be extremely adept at handling coin machine routes.

Karl Peterson of Fergus Falls was in town this past week and was feeling full of pep and plenty happy, too . . . Mr. and Mrs. R. M. Shea were in the Twin Cities for three days visiting distribs and, at the same time, making a holiday of their visit . . . Herman Warn, who received his discharge last month, is back in civvies again. He sure was tickled to be back in action again looking after his route. Herman confides that among his post-war plans is to go into the phono biz bigger and better than ever before. Good luck, Herman.

Joe Atol of the Arrowhead Fireworks Company in town for a couple of days. Joe is just about ready to make his usual trip down to New Orleans . . . Hy-G Amusement is playing host to the ops coming Monday, January 21, when they will show their new Seeburg phono and they are expecting a tremendous turnout for this showing . . . Harry Harrison and his big fur hat were in and out of Minneapolis the same day . . . Looks like Bob More better fatten up a bit on his wife's good cooking. After two and a half years in the Navy Bob sure did thin down plenty. But, from what we hear about Mrs. More's cooking, that shouldn't take long to cure.

THRU THE COIN CHUTE

NEW ORLEANS

Glad to hear that Joe Villars and Lil Samuels are completely recovered from their colds . . . Wallace F. Erwin, former Army major, now associated with Wurlitzer in the exporting division in this section of the world . . . George Rokos is due back here. He had, for the past few years, been managing the G. & S. Distributing Co., Memphis branch . . . George McQueen who, besides running an extensive phono route and welcoming all big names who come down this way, puts in a good deal of work at the verra exclusive Beverly Country Club and is often found just inside the door there greeting his many friends.

When Vernon Harvey of Walther Bros. record dept. comes home he'll probably have pahlenty good news for music ops . . . Ralph Romeguera doing fine over at Louisiana Coin Machine Service. Their stockroom will really be in complete order when the new AMI's come to town . . . After much haggling and waggling with the long distance op his offices were at last able to reach Fletcher Blalock when he arrived a day earlier than expected in Nola . . . John Woodruff is sure a happy pappy. One son, Roy, arrived home last week from the German front and another, Warner, is awaiting his Navy discharge in Seattle and expected back with the family any moment.

That Ponder man sure does get around. Next week Ed'll cover the territory in Kansas, Arkansas, Mississippi and Florida. That song, "You'd be so nice to come home to" must have been written especially for Mrs. Ponder and their very precious little daughter . . . Henry "the" Fox and Jules Peres are back from the Windy City for a breathing spell. Next week O. C. Marshall will turn the tables on his podnahs and will accompany three of his most skilled mechanics to the Aireon factory in Kansas City to learn more about the new Aireon phonos and accessories . . . Little Carmen Marie Villars, already verra verra beautiful and just all of six weeks old, paid the F.A.B.ites a visit the other day with her Mommy who had taken her to her first movie.

DeWitt (Doc) Eaton of AMI expected in the Crescent City about the 20th to tell the Ponder people all about their new model . . . Robert D. Wynne, former 1st Louie in Uncle Sam's Army, is working at F.A.B. and sure happy to be back in civvies again . . . C. E. Sherrill of Hattiesburg claims it sure was fortunate to be in town with Fletch Blalock on the very same day . . . Leslie (Slick) Wade making people's mouths water telling all about the delicious barbecues which are prepared in the cafe at Waynesboro, Miss., in which he has an interest, of course . . . Slick promised your gal Sal that she would get a taste of the finest.

HOUSTON

Harold W. Daily modestly admitted that his South Coast Amusement Co. offices in Houston, Beaumont and San Antonio were doing well. He further just as modestly guessed his nearly completed $30,000 building was a humdinger. But, when he started talking about the Mills line of merchandise, he cast modesty aside and gave out with eloquence of the type which almost elected him State Congressman a few years ago . . . Longest established distributing firm in the city, Coin Machine Sales Co., owned by A. H. Shannon, has pulled up stakes from the M & M Building and moved to its own building at 3804 Travis St. The concern occupied the same office in M & M Bldg. for 12 continuous years.

Clyde Atkins is worse'n a war worker about changing around. Back in 1917 national prohibition curtailed production considerably at the brewery where he worked so Clyde took to operating music. A short span of 28 years and he, in partnership with a canny Scot named Fred McClure, owned a top notch operating firm. Then Clyde hauled off and bought into a concrete products manufacturing plant. "A verra impatient mon, always jumping from one business to another", commented partner Mac . . . Everybody remembers Ed Lear, popular young manager of the local Seeburg branch before the war. And how he'd sing for anybody, anytime, any place. Well, seems like Ed has learned things beside soldiering the past few years. He sang for the old home town recently and was given the greatest ovation any tenor, furriner or native, was ever, ever handed out hereabouts. One tough critic, who finds fault with 'em all, said Lear was as great as the best and would even improve.

Commercial Music Co. mixed business and pleasure with a lot of good old Southern hospitality in their South Texas showing of the new model 1015 Wurlitzer on Jan. 7 and 8. The unique feature of the "pleasure" part was an indoor barbecue with plenty of firewater. Current comments from the business angle were "She's a beaut" . . . Sam Ayo impatient about finishing his new building so that he can give the cash customers a look at the new Aireon phonographs in fitting surroundings . . . Former Ensign J. S. Hart back as manager of the Houston Decca offices . . . H. J. Hansfield out of the Army and manager of the local Columbia wholesale record sales . . . Ex-serviceman Bert Bruce and Don Kavanaugh selling Victor records . . . Ex-U. S. Marine C. O. Harrington back at the helm of his Harrington Amusement Co.

Shining star of the General Distributing Co.'s office is glamorous Lillian Cowart, secretary of this outfit . . . Visitor from Dallas was Harry Drollinger who used to operate music with a horse and buggy and is now a big shot with Packard . . . Operator, distributor and manufacturer, Bill Bird, hinted about some revolutionary operating equipment for the trade—soon . . . Business conditions are excellent, fair or poor, depending on what a citizen does for his beans. Homes that were HELD for $3,200 now SELL for $6,000; an ex-serviceman paid $75 for a suit that would have fitted Alley Oop and $3.50 for a shirt without a tail; a waitress thanked us for a dime tip; industrial workers are taking a $30 to $60 per month salary cut in the changeover to the 40 hour week.

C. M. I. BLUE BOOK

The "Coin Machine Industry Blue Book" for new and used coin operated equipment is issued every week. It is a review and digest of all selling prices based upon the market quotations for the week. *Copyrighted 1946 by The Cash Box, 381 Fourth Avenue, New York 16, N. Y.*

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The C.M.I. Blue Book is to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.

2. MEANS PRICE WENT DOWN.

3. MEANS MACHINE JUST ADDED TO LIST.

4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK

5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.

6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS

7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS

XX — MEANS NO PRICES QUOTED FOR MANY WEEKS—PRICE SHOWN IS LAST KNOWN QUOTATION.

IMPORTANT

Machines underlined mean these were most active in trading the past week.

UNCOMPROMISING POLICY

FROM 1917 TO 1942

"Endorsing Only The Best"

In 1942 war restrictions and conditions called for ***at least*** a compromise in our policy if we were to continue our business.

Rather than do that we stopped!

Being sure ***now*** that nothing can compel us to make even a remote change in our original policy, we are renewing our activities ***in every field of the Coin Machine Industry*** with this pledge.

We shall recommend and sell ***Only The Best*** Amusement-Merchandising-Music Machines and Accessories.

Our new home at 199 W. Girard Avenue ***the largest of its kind*** will be completed about February 20 with most modern facilities to serve the trade in a manner not equalled in any part of the United States.

Soon we shall announce our new method of distribution which will create ***the best*** relations between manufacturer, distributor, jobber, and operator. This method will be a liberal departure from old fashioned methods. We will pioneer it to benefit the industry.

Our Pittsburgh Branch is now in full swing under the direction of Harry Rosenthal, with Captain Herbert Rosenthal Sales Manager, and George F. Klersey Service Manager.

MEET THESE 18 REASONS WHY

● Leadership in this "music for the millions" business of ours is fundamentally living up to a reputation for creating the newest and finest equipment first, manufacturing it to meet the highest performance standards and the greatest operational dependability—and backing it up with the most efficient distribution and service system possible. Packard's record is double-A-one in every department. Packard's engineers and management—the oldest and most experienced heads in the business—gave selective reproduction of music on records to the entertainment world—and selective remote control coin boxes to double and treble the "take" of automatic phonographs. They are now presenting something completely new—yes, literally revolutionary, in automatic phonographs. Packard *has* won its leadership—and continues to *prove* it—in creative planning and design, in dependable and profitable performance, and in the most desirable kind of service.
